DIPLOMA PROJECT

A MULTIMEDIA GUIDE TO
PANCYPRIAN GYMNASIUM
CS/212

CONSTANTINOS PSILOGENIS
9 JUNE 1999

INTRODUCTION

This project is not supposed to solve any specific kind of information technology problem. Its aim is to provide the users an easy way to gain access to information about the pancyprian gymnasium.

The project is going to be developed for about four months in order to be completed. During this period I'll try to get a clear view of what multimedia is and try to collect the right information and following an appropriate approach to develop an application in the best possible way.
